SUBJECT: GAO Report on Retirement Options for Early Out Groups

1. Attached hereto is GAO Report No. GGD-85-22 dated 7 January 1985 entitled, "Options to Consider for Certain Employee Groups in Designing the new Civil Service Retirement Program." The information in this study was reported by the undersigned in November 1984. The report was requested by the Senate Government Affairs Committee.

2. This study identifies groups of employees who have special retirement eligibility provisions, including CIARDS employees, and suggests four alternative benefit formula designs for providing higher benefit levels at earlier ages.

3. The average age of retirement and years of service for CIARDS employees (page 5) was submitted by the undersigned following coordination with the Office of Personnel.
